

NEWS LITERATE COMMUNITY INITIATIVE

HELPING TO FIGHT TRUTH DECAY

Our Mission

We help fight “truth decay” by providing adults with practical tips, tools, and techniques to distinguish fact from fiction in news of all kinds. By helping people learn to identify what is true, we hope to build a shared set of facts, encourage meaningful dialogue on important issues, and strengthen both our community and our democracy.

Our Vision

We will create a community that moves forward with well-informed citizens, pursuing common purposes using a shared set of facts.

Our Values

We are nonpartisan and non-political. We are NOT arbiters of truth, but we work to give people skills needed to tell fact from fiction.
